

North Carolina Council on Developmental Disabilities

February 5, 2013

The Honorable Max Baucus
Chairman Committee on Finance
United States Senate
219 Dirksen Senate Office Building
Washington, D.C. 20510

Dear Senator Baucus:

The North Carolina Council on Developmental Disabilities (NCCDD) works to advance opportunities and services for each of the estimated 172,000 persons with developmental disabilities (DD) in North Carolina. We support the principles outlined in the Achieving a Better Life Experience (ABLE) Act (H.R. 3423/S.1872), which would allow individuals with developmental disabilities greater opportunities to build assets needed for employment, education, and health care.

NCCDD's community grant awards and systems change efforts are guided by the core values set out by Congress in the Developmental Disabilities Bill of Rights and Assistance Act (P.L. 106-402) that promote independence, self-determination, productivity, integration and inclusion in community life. Our Council is 40 members who are appointed by our Governor, and 60 percent of our Council are persons with a developmental disability or a family member. Other members include representatives from the North Carolina General Assembly, and those who administer funds under federal law including state service delivery agencies, non-profit and other professional groups.

Families want to be able to save money for the futures of their children with disabilities similar to the way families save for education expenses through special savings plans. Adults with disabilities also want to save to meet their needs while keeping their eligibility for Medicaid, Supplemental Security Income (SSI) and other important federal programs. The ABLE Act would give individuals with disabilities and their families access to accounts that would allow individual choice and control while protecting eligibility for Medicaid, SSI, and other important federal benefits for people with disabilities. People would be able to manage the accounts and use savings for things listed in the bill such as educational expenses, health and wellness care, employment training and support, assistive technology, transportation, housing, and other expenses.

NCCDD asks that you support the principles outlined in the ABLE Act. We hope the Senate Finance Committee will discuss these issues and take action as soon as possible in this Congress. Thank you for your efforts to improve the lives of North Carolinians with developmental disabilities.

Sincerely,

Ron Reeve, Chair
North Carolina Council on Developmental Disabilities
